Leonard and Carrigan Probable Battery in Opener-Barry and Foster May Not Play.

Fair Weather Is Predicted for First Game in Boston

BOSTON, Mass., October 5 .- Fair weather will prevail on Saturday for the opening game of the world series here, in the opinion of John W. Smith, head of the local weather bureau. "All indications today," he said,

"are that conditions will be fair. Temperatures will be seasonable and winds moderate from the west. The outlook could not be better."

BOSTON, October 5.-With the first

game of the world series to be played every element in the local end of that event was in readiness today. The marking time from the end of the season, which brought them another pennant, to the hour they meet the Brook greater base ball honors, divided forces. One group, headed by Capt lations to have Congress repeal this Jack Barry, went to Worcester to oppose the Philadelphia Americans in a game arranged to assist a memorial fund for the old-time umpire, John

H. Gaffney.

Others of the team went to Braves' Field, where the local games will be played, for light practice. Manager Carrigaf, who was with the latter group, said that "the boys are in good shape, except for Foster and Barry."

Whether either or both would be able to take an active part in the series was still uncertain, he said.

Close followers of the team, claiming no authority for their statement, predicted today that Carrigan himself would catch the opening game, with Leonard as the pitcher.

All Reserved Seats Allotted.

Allotment of the 27,000 reserved seat tickets was finished early today, with probably more than 1,000 applications unanswered. The available reservations were oversubscribed so greatly that many persons who asked for a that many persons who asked for a modest pair of seats were allowed but one, while others asking six and eight in some instances obtained only a pair. To receive their tickets, applicants besieged the club box offices today, and with the announcement of last night that reservations were not specific, but applied only to the number of seats allowed, with early comers getting preference of location, the grandstand ticket lines resembled a bleacher rush. This desire to be on the grounds early was reflected today in the arrivals at hotels of hundreds of visitors, some of whom at least had come ahead of time, hoping to get the pick of seats. Hotel men reported early indications of a tremendous business, requests for reservations having taxed

Question Before Supreme Court of United States on Decree of

California Tribunal.

Immigration of Hindoos to the United States is a question before the Supreme Court of the United States for its examination of a decree of Califor nia federal courts ordering deportation in 1913 of thirty-five Hindoos. Important questions involving Anglo-American treaties, alleged race prejudice, au thority of immigration officials and citizenship rights are raised in the ap- undertaken by the pure food experts of peal. Also involved is the question of the Department of Agriculture. Dr. whether immigrants allowed to enter Carl L. The Hindoos are said to be working in San Joaquin county, where they obtained ball pending their appeal.

Exclusion of the Hindoos was ordered by the immigration bureau and sustained by the California district court and ninth circuit court of appeals. It was found they were suffering from hookworm and might become public charges. The courts held also public charges. The courts held also that for immigration purposes the Phil-ippines are not "a part of the United
